DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-7, 9-16 and 18-21 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, line 13, "said lateral seals" lack antecedence.

In claim 15, line 16, "said lateral seals" lack antecedence.

In claim 15, line 17, "at in incline" should be changed to --at an incline--.

Claims that have not been specifically mentioned are rejected since they depend from claims rejected under 35 U.S.C. § 112, second paragraph.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 1-7, 9-14 and 20 are rejected under 35 U.S.C. 103(a) as being unpatentable over U.S. Patent No. 6,910,806 to Strand et al. and Pre-Grant Publication No. US 2002/0196987 A1 to Tilman et al.

Strand et al. discloses the claimed device (see Figs. 1-6) except for the fastener tracks having end stops at each end, spaced inwardly from the side seals of the package. Tilman et al. discloses that it is known in the art to provide end stops at each end of an analogous fastener track with the end stops being inwardly spaced from the side seals of the package (see Fig. 10). It would have been obvious to one having ordinary skill in the art at the time the invention was made to provide the fastener tracks of Strand et al. with the end stops of Tilman et al., in order to prevent the slider from engaging the side seals of the package.

Regarding claim 20, Strand et al. and Tilman et al. disclose the claimed invention, as discussed above, except for the score lines extending downwardly across the fastener tracks at an incline of approximately 45 degrees to the side seals. It would have been obvious to one having ordinary skill in the art at the time the invention was made to incline the score lines that extend downwardly across the fastener tracks at an incline of approximately 45 degrees to the side seals in Strand et al., since it has been held that rearranging parts of an invention involves only routine skill in the art.

Allowable Subject Matter

5. Claims 15, 16, 18, 19 and 21 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Response to Arguments

6. Applicant's arguments with respect to claims 1-7, 9-14 and 20 are have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action..
